

Bayview Mackinac Race  
***CRUISING DIVISION***  
***- RACE RULES -***

**Mackinac Race – Cruising Division - Race Rules**

**A. General Information**

- **Purpose:** To create a sailing configuration and handicapping system that allows cruising-style boats to equitably compete in the Bayview Mackinac Race – Shore Course Cruising Division (Division III).
- **Rules:** The Rules as listed in the Bayview Mackinac Notice and Conditions of Race ([www.bycmack.com](http://www.bycmack.com)) and the following document(s):
  - “Mackinac Race – Cruising Division – Race Rules”, which includes the General Information, Details, Actions, Credits and Penalties
  - Performance Handicap Racing Fleet (PHRF) of the Detroit Regional Yacht-Racing Association ([www.drya.org](http://www.drya.org)), known as Section 15 – DRYA PHRF Rules and Regulations (items 15.8 through 15.14), shall apply to the Shore Course Cruising Division Rules except as modified by this and associated documents.
  - The “Mackinac Race – Cruising Class – Race Rules” are to be used for the following Division: Shore Course Cruising Division (Division III).
- **Acceptance:** The BYC Race Committee, in its sole discretion, may accept or deny any boat’s entry to the Shore Course Cruising Class. A *Final Race Rating* is defined as a boat’s DRYA PHRF Bayview-Mackinac Race, Shore Course Cruising Base rating with all appropriate credits and penalties applied as described herein.
- **Requirements:** All participants in the Shore Course Cruising Class **shall** complete and submit, along with their Bayview Mackinac Race Entry Form all documentation necessary to inform the Race Committee of the race configuration of the boat if not readily identified on the boat’s PHRF certificate.
- **Classes:** Specific classes and splits will be made at the sole discretion of the Bayview Yacht Club Handicap Committee.

**B. DETAILS – Actions, Credits and Penalties**

**Allowed Equipment and Actions While Racing:**

The spinnaker tack line may be led to a spinnaker tackpoint or block that is mounted on the centerline of the boat, at or forward of the headstay. The spinnaker tackpoint or block may also be tightly lashed to the forward side of the forestay tang. However, a boat may only have one spinnaker tackpoint for the duration of the race.

The spinnaker tackline may be led through an anchor roller, or a spinnaker tack block attached to this assembly or any other type of sprit assembly, providing it is on or near the centerline and is no more than 12 inches forward of the headstay, and stays attached in the same position for the duration of the race.

There is no restriction on the spinnaker tack line length.

**Mackinac Race – Cruising Division - Race Rules**

A spinnaker sprit pole may be used as the spinnaker tackpoint providing it is not more than 12 inches forward of the head stay when in its fully retracted position. If used, it shall remain in its **fully retracted position** at all times while attached to the spinnaker.

**Prohibited Equipment and Actions While Racing:**

Spinnaker or whisker poles shall not be attached to a spinnaker in any way. A spinnaker or whisker pole shall not exceed the length of the “J” measurement if attached to a headsail.

As mentioned above, the spinnaker shall only be attached to a single tack line that is led to a spinnaker tackpoint or block mounted on, or as near as possible, to the centerline of the boat. This tack line must lead directly from the spinnaker tack to the spinnaker tackpoint or block. Any attempt to divert this line, or the spinnaker itself, through or around an afterguy, pulpit, cleat, Turks head, bow chock, or other outrigger, before it reaches the spinnaker tack block, is not permitted.

Up to two (2) spinnakers are allowed on board during the race and assessed no penalty. A three-(3) second/mile penalty will be assessed for each additional spinnaker. A “code zero” that measures as a spinnaker counts toward the two (2)-spinnaker limit.

**Qualification for Roller Furling Genoa Credits (RFG)**, are as follows:

1. No more than three (3) headsails with an “LP” greater than 110% of “J” shall be on board during the race, (see Credits and Penalties below),
2. A “Code Zero” that measures as a Genoa counts toward the Genoa limit for boats utilizing the “RFG” credit,
3. All headsails, other than the BYC MSR storm jib, must be flown using the roller furling equipment,
4. During headsail changes, the “old” sail must be dropped to the deck prior to hoisting the “new” sail on the roller furling equipment,
5. See latest MSR regarding Storm Jibs and Mainsail Reefing Equipment,
6. Any headsail with an LP of less than the 110% that is designed for heavy weather sailing is allowed.

**Qualification for ALL boats participating in the BYC Cruising Classes** are as follows:

*All headsails built and carried onboard, that measure less than 110% of J measurement, shall (must) be made using sailcloth material and weight, such that is considered for heavy air use, only. The use of drifter/wind seeker type, very lightweight headsails or staysails, is strictly prohibited.*

BAYVIEW YACHT CLUB  
**Mackinac Race – Cruising Division - Race Rules**

**Credits and Penalties:**

All credits/penalties are subject to review and **photographs shall be submitted with your entry.** Approval for all credits/penalties is at the sole discretion of Bayview Yacht Club's - Race Committee.

**SAILS:**

**Roller Furling Genoa (RFG) credit: +3 seconds per mile.** To qualify, a boat may only have **three** headsails with an "LP" larger than 110% of "J".

**Roller Furling Genoa (RFG) credit: +6 seconds per mile.** To qualify, a boat may have no more than **two** headsails with an "LP" larger than 110% of "J".

**Roller Furling Mainsail (RFM) credit: +6 to +12 seconds per mile.** To qualify for this credit a boat must have a mainsail that **furls inside of, or alongside, the mast.** If the mainsail has battens, the sail must furl with the battens in place. RF mainsails with battens must declare the batten configuration.

**Woven Polyester Main (Dacron) credit: +3 seconds per mile** is allowed for the Cruising class only.

**Woven Polyester Genoa (Dacron) credit: +3 seconds per mile** is allowed for the Cruising class only. **All headsails on board must be woven Dacron to apply for this credit.**

**PROPS:**

**Fixed Propeller credit (2-Blade): +6 to +12 seconds per mile.** To qualify for this credit a boat must have a solid bladed propeller that does not fold, feather, or be hidden in any way. **Photograph required in order to qualify.**

**Fixed Propeller credit (3-Blade): +9 to +24 seconds per mile.** To qualify for this credit a boat must have a solid bladed propeller that does not fold, feather, or be hidden in any way. **Photograph required in order to qualify.**

**OTHER:**

**Open Bow Thruster credit: up to +18 seconds per mile.** To qualify for this credit a boat must have an open bow thruster that does NOT close or be hidden in any way. **Photographs required in order to qualify.**

**Below Deck Roller Furler** credit may be given to boats with a below deck furler, if an appropriately sized pennant is attached and the associated headsail sail area is commensurate with the above deck furling systems. **Photographs required in order to qualify.**

**Mackinac Race – Cruising Division - Race Rules**

**Apply a Winged/Modified Keel Credit.** Since there is a wide variety and efficiencies of winged and/or modified keels, the boat **shall submit photographs** and other documents for the Race Committee to determine if a boat warrants a rating change.

**Consider additional Cruising Equipment and Accessories.** A credit may be given for custom cruising equipment added that negatively impacts a boats performance or racing function. This credit shall be applied for in writing. **Photographs required in order to qualify.**

**Electric winches** are allowed.

**Any standard or optional cruising equipment removed from the boat shall be declared** which may affect a boat's Final Race Rating.

**SPINNAKER:**

**Extended spinnaker tackpoint debit.** A penalty of 3 seconds per mile for every 5% the spinnaker tackpoint extends beyond the "J+ 12 inch" measurement. This penalty does not apply to any spinnaker tackpoint allowed by "**Allowed Equipment and Actions While Racing**" (see above).

BAYVIEW YACHT CLUB  
**Mackinac Race – Cruising Division - Race Rules**

**PHRF Rating Worksheet**  
**Must be submitted with your Race Application**

All participants must comply with the DRYA, Section 15 PHRF Rules and Regulations (items 15.8 through 15.14) – see below for exceptions and clarifications.  
Please provide the following information if you are applying to race in the Cruising Class – circle Y or N, check others

Boat Name: \_\_\_\_\_ Sail Number: \_\_\_\_\_

Owner/Chartered \_\_\_\_\_

MFG / Model \_\_\_\_\_

BAYVIEW YACHT CLUB  
**Mackinac Race – Cruising Division - Race Rules**  
**Summary of CC Credits and Penalties**

**Standard Rating Consideration for Boats in the Cruising Class (in seconds/mile)**

**Credits:**

- Woven polyester Mainsail +3 (**NO COMPOSITE MATERIALS**)
- Woven polyester Jibs/Genoas (**Dacron Only**) All Headsails +3 (**NO COMPOSITE MATERIALS**)
- Open Bow Thruster **(NOT closed or hidden)** +3 to +18(**Photograph is a MUST**)
- 2-Blade Fixed Propeller Credit +6 to +12 (**photograph is a MUST**)
- 3-Blade Fixed Propeller Credit +9 to +24 (**photograph is a MUST**)
- Two RF Genoas larger than 110% +6
- Three RF Genoas larger than 110% +3
  - In order to qualify, the roller-furling unit must meet the appropriate mfg. specifications and size (make and model)
  - Boats designed with a non-overlapping jib may qualify for a credit – subject to the committee's discretion (photographs encouraged)
  - Additional credit may be given for smaller headsails (e.g. PJAMR) at the committee's discretion.
- RF Main (battens in mast) +6 to +12 (**Photograph is a MUST**)
- Cruising Amenities Credit consideration by the committee (**photograph is a MUST**)

Any cruising disadvantage or impaired racing or functional activity will be considered (**photograph and description required**)

**No Change or 0:**

- Position of Asymmetrical Spinnaker Tack - 12" (Max.) forward of Jib Tack. Mounting unspecified. (Photograph is a MUST)
- Spinnaker tack line length – unlimited – see rules for limitations
- Electric winches are allowed

**Penalties:**

- Extended spinnaker tack point beyond 12" -3 seconds per 5%
- Additional Spinnakers -3 seconds for each additional Spinnaker beyond the allowed 2 (Cruising Class Only)

**Copies Available at: <http://www.byc.com/mack>**
